MASTER OF BIOTECHNOLOGY

A PROFESSIONAL SCIENCE MASTER'S DEGREE

The Master of Biotechnology is an innovative graduate degree designed to allow students to pursue advanced training and excel in science without a PhD, while simultaneously developing valuable business skills without the additional time and money needed to obtain an MBA.

WHAT TO EXPECT:

- MBA-level business core courses
- Industry related fundamentals
- Real-world projects and team experiences in the business and public sectors

PROGRAM DETAILS

COST PER UNIT: **\$825**

TOTAL UNITS: **39**

TOTAL COST: **\$32,175**

(Not Including Fees)

The program comprises 39 units in a combination of biotechnology and business classes over five semesters. It is one of the most practical and applicable biotechnology degrees available in the San Diego area.

ADMISSION REQUIREMENTS

- Bachelor's degree with a major in bioscience, chemistry or related field
- Minimum 2.75 GPA in the last 60 units completed
- Courses or experience in statistics, biochemistry, microbiology and cell biology

**Some students may be required to take additional units where there are deficiencies and/or when project demands warrant additional units.*
