

Students Experiencing Cold-Like
and or COVID-19 Symptoms

Do Not Come to Campus

Keep your faculty informed of
your status

Monitor your symptoms.
If symptoms continue consider COVID
testing and/or seek medical care from
SHCS and/or your Primary Care Physician

Positive COVID-19 Case

Email the COVID Case Management
Team at covidcasereporting@csusm.edu

Isolate until you have not had a fever for 24
hours without using fever reducing
medication AND other COVID-19 symptoms
are mild and improving.

If asymptomatic, no isolation is required .

You should mask indoors around others for
the 10 days after you become sick or test
positive (if no symptoms). You may remove
your mask sooner than 10 days if you have
two sequential negative tests at least one
day apart.

Close Contact Exposure Without Symptoms

Fully-vaccinated or Not fully-vaccinated

Note: Keep faculty informed of your status.

Should wear a well-fitted mask indoors around others for 10 days from the last day of being exposed and monitor for symptoms

If symptoms start, recommend to test and should continue to wear a mask indoors around others for 10 days from the last day of being exposed

If positive notify the COVID Case Management Team at covidcasereporting@csusm.edu

No symptoms, recommended to test 6 days after exposure

Negative

Return to normal activities, should wear a well-fitted mask indoors around others for 10 days from the last day of being exposed

Positive
