

GENERAL INVESTMENT POLICY

PURPOSE:

To provide general guidance relative to the delegation of authority and responsibility, the policies needed, and the review requirements related to investment management.

BACKGROUND:

The Board has a fiduciary duty as trustee of invested funds and other liquid assets held by the California State University San Marcos Corporation (CSUSM Corporation). CSUSM Corporation engages Investment Advisors to advise on the management of investments, trusts and other financial matters of CSUSM Corporation. The extent of the investment management responsibilities of the Corporation, however, is such that it is prudent that whenever possible, CSUSM Corporation must secure and operate with continuous professional supervision of investments.

CSUSM Corporation maintains reserve accounts intended to be used for future planned activities (i.e. capital purchases, replacements, contingencies, etc.) and operating accounts for managing other general administrative activities. It also maintains various program accounts which help support campus activities. Since the balances in these accounts may be drawn on at any time, the investment objective is to preserve principal, provide liquidity, and provide a secure and stable investment return.

This policy provides the baseline authority and requirements for administration of all of CSUSM Corporation's investment assets. Each investment pool is to be operated in compliance with this policy.
