MEDICAL SELF-ASSESSMENT

Though a study abroad experience can be exciting and rewarding, it can also be both physically and emotionally demanding. Therefore we ask that you provide a candid evaluation of your health. A certain amount of stress due to culture shock or the change in living conditions and facilities is a normal part of the study abroad experience. However, in some cases, such stress may aggravate disabilities or illnesses that you have under control at home.

With this form, we hope to create an awareness of any health issues that you should take into consideration before going abroad. This information will be used primarily to guide us in making appropriate arrangements for you as a CSUSM participant. The information will also be forwarded to the coordinator at your host institution.
